

ORGANIC CHEMISTRY

@ The Westminster Schools, Atlanta, GA

www.adriandingleschemistrypages.com/organic.html

If you are.....

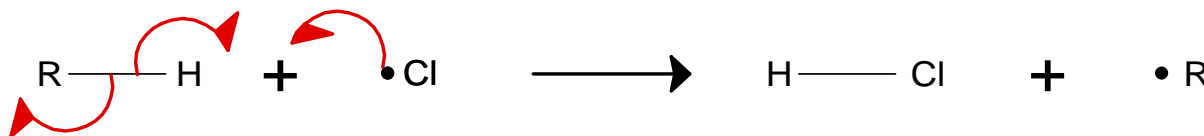

.....going to college anytime within the next three years AND you are considering a science related major or Pre-Med course, or.....

.....a high school student who has heard about the horrors of college organic chemistry courses, or.....

.....the type of person that has a burning desire to know more about heterolytic, nucleophilic substitution reactions of halogenoalkanes with hydroxide ions (SN1/SN2), or.....

.....the type of person that needs to know what's going on in the diagrams on this page.....

.....then the 2008 Summer Elective course,
An Introduction to Organic Chemistry
@ The Westminster Schools, Atlanta, GA may be for you.
